NICO LESS

L

Stack the chairs without compromising the design

A tribute to the great industrial designer Niko Kralj and his Shell chair, Nico Less is a congress seat that can be linked into compositions of various lengths or stored into vertical stacks. The seat consists of ergonomic triangular plates allowing comfortable sitting by adapting to the body. Transformation to an office chair is made with two metallic bases or to a living room chair with a wooden base. You can pair it with a prefabricated table with tin, wooden or felt top.
