# EOS LED CIRCULAR

From transparency to  
homogenous light.

# Minimalism. Style. High visual comfort.

EOS LED Circular is characterized with a slim frame around a transparent panel, which makes the luminaire elegant and unobtrusive element in the room. When switched on, the luminaire changes its form and creates a perception of circular light hanging in the air. Emitting light both up to the ceiling and down to the workspace, it diminishes glares, delivers high quality light and creates a comfortable atmosphere.
